## **Preface**

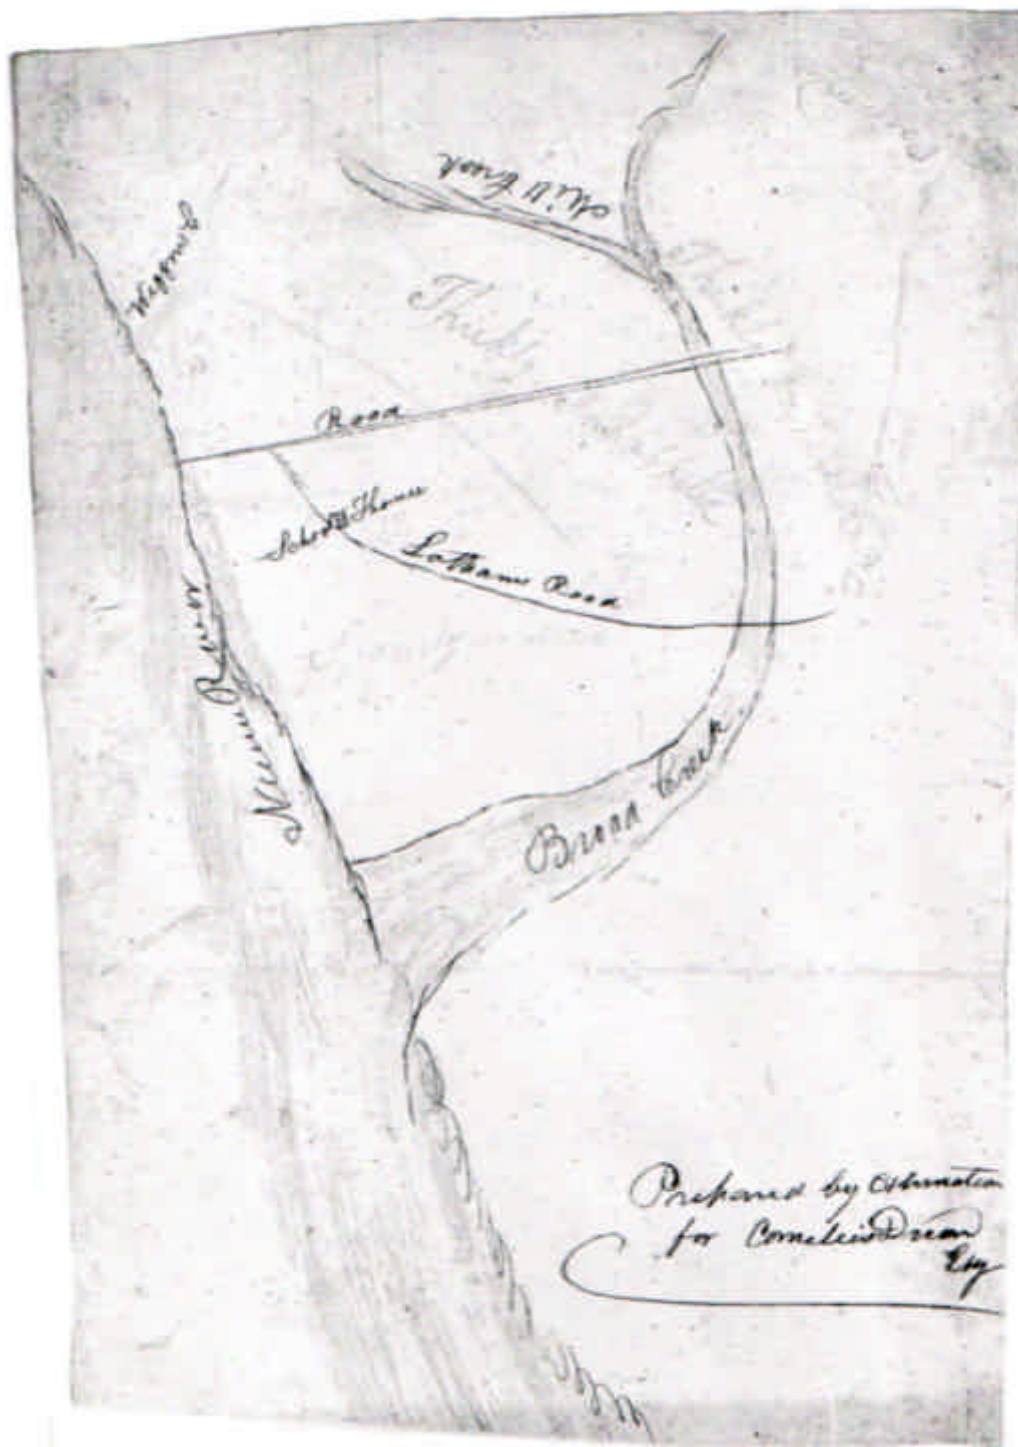

An Act of the North Carolina General Assembly required the listing of all school children and districts between the ages of 5 and 21. The school children listing for Craven County of 1845 has survived and is available on NC Archives microfilm C.028.90039. The original records are available in the NC Archives as C.R. 028.926.2. In addition to the 1845 listing there are also incomplete listings for 1841 – 1868 along with other committee records and schoolteacher interviews.

In general the enumeration was by family groups within the district, however some of the districts are alphabetical and or listed male and female. In addition to the listing of children, some districts reported additional data including head of family, days present, age. Usually the school committee members signed the report and their names may aid the researcher in locating the general area of the district as very few of the districts are named in their respective reports.

The reports were addressed to Capt. John T. Lane, Superintendent of Common Schools, Craven County.

The folder for 1845 contains more than one report for three districts. Districts 8, and 10 have two reports, one being the census and the other the end of term list reporting attendance. The two reports for district 12 are quite different in content and are signed by different committeemen. Clearly numbered as district 12, they appear to be the census of different parts of the same district.

Assuming consecutively numbered districts, census reports did not survive for school districts 9, 13, 20, 21, 24, 25, 26, 27, 28, 29, 36, 37, or 40 for the school year of 1845.

Map from 1845 School Census Folder, not dated, original size 22 x 15 cm.  
Prepared by estimation for Cornelius Dixon, Esq.

School District 1

November 17, 1845. A list of children in district No. One taken by one of the committee, A. Kilpatrick.
