Schedule 4	Productions of Agriculture	4-1 – 4-9
Schedule 5	Products of Industry	5-1
Schedule 6	Statistics	6-1
Appendix 7	Names indexed by given name ..	7
Appendix 8	Names indexed by surname	8

The 1850 Lenoir County, North Carolina Federal Census

This transcription's goal was to produce a modern, abstracted version, faithful to the original, fully indexed, and in a WYSIWYG format. The images were transcribed to a relational database, and the output has been formatted to a facsimile of the original pages.

The original spelling of names in the document has been preserved. The comprehensive indexing of surnames is intended to overcome any difficulties in the original spelling. Also many names are now spelled differently by ancestors and the correct or modern spelling of names is left to the user of this work.

All of the names on Schedules 1, 2, 3, 4, and 5 appear in the Index. Due to differences in the original spelling, the index should be examined for other common spellings of a surname, i.e., Withrington, Weatherington, Wetherington, etc.

Schedule 1 Free Inhabitants

The entire 1850 Lenoir County census was enumerated by Franklin Dibble. Schedules 1 and 2 were started on August 2, 1850 and completed on November 14, 1850 .

The enumerator did not list any districts or townships within the county. Only residents of the town of Kinston were identified on pages 183B through 186A.

Also following the original format, note the omission of a person's color denotes white, where only black or mulatto was documented. The original ticks denoting marriage, schooling, and literacy have been changed respectively to M, S, or X for clarity. A column has been appended for additional notes. The original Schedule 1 format of 42 lines per page has been preserved.

Illegible entries are represented by '. . .' and questionable transcriptions are annotated with a '?'. Original miscellaneous notes and transcription notes have been added to the pages in *Italics* under the heading of notes.

Schedule 2 Slave Inhabitants

For Lenoir County, this schedule consists of 49 pages, with 2 columns of 42 lines per page. The original pages were not numbered and are listed in the order of microfilming. The record consists of the slave owner, and the listing of the number, age, sex, and color of the slave. Other statistics included were fugitives, manumitted slaves, and status (blind, deaf, etc.). The names of the slaves were not listed in schedule 2. Note there are often inconsistencies in the name spellings between Schedule 1 and 2. Also some names in Schedule 2 do not appear in Schedule 1. The pages were dated during the enumeration process.

This work lists only the slave owners and number of slaves. The details on the slaves were not transcribed.

The town of Kinston, as spelled in Schedule 1, is spelled Kingston on Schedule 2. This inconsistency probably resulted from the town's former spelling, changed during the early 1800's.

Schedule 3 Persons Who Died (Mortality)

The Mortality Schedule consists of three original pages of 35 lines each. Although the original pages were not numbered or dated, there are numbered in order of the microfilm record for indexing purposes.

Schedule 4 Productions of Agriculture

The Agriculture Schedule of 18 original pages and the original format has been preserved. Although the original pages were not numbered, there are numbered in order of the microfilm record for indexing purposes. The pages were dated during the enumeration process.

Schedule 5 Products of Industry

The Industry Schedule of one original page and the original format has been preserved. Although the original pages were not dated or numbered, there are numbered in order of the microfilm record for indexing purposes.

Schedule 6 Social Statistics

There are no names listed on this one page and the information is presented here for summary only. The pages were not dated during the enumeration process.

Indexes – Appendixes 7 and 8

The names on Schedules 1, 2, 3, 4, and 5 were used to prepare the indexes. Although the original work does not include a surname on every line, the head of household surname or previous entry surname was used to prepare the transcription index.

The page numbers in the index refer to the original schedule and page. The entries 145A – 186A refer to the original schedule 1 page numbers and the entries 2-1, 3-2, 4-3, 5-4, reference additional schedules and page.
